

Ukrainian High Tech Digest 2016

Did you know that...

- ...Ukraine is the largest location in the whole Luxoft automotive department?
- ...Ukrainian GlobalLogic created an insulin pump for diabetic people?
- ...Ukrainians have made software for Boeing, Volvo, Ford, and Scandinavian Airlines?

Do you want to know more?

Let us introduce you an enormous Ukrainian IT industry potential!

The European Business Association in partnership with SBT Systems.

High Tech Landscape

Ukraine is a #4 of largest exporter of IT products and services in the world. We owe our success to the talent of more than 100 000 IT professionals, strong education system and support of Ukrainian government. We are the best in what we do in the global arena: 10 IT companies operating in Ukraine have been selected among one hundred of 2016's best outsourcing service providers in the world.

In addition, the country has been among the top 30 outsourcing destinations since 2007 according to the Gartner Group. Around 95% of the industry's revenue comes from external markets, mostly from the USA and European Union countries. IT, telecommunications and financial companies are showing high demand for

software development and testing, application management, application user support and database administration.

Open to IT. Open to You!

Ukraine is the homeland of the creators of WhatsApp and PayPal, Grammarly, Depositphotos, Petcube. The development centers of global companies like Samsung and Ericsson are located in Ukraine. More than 100 companies from Fortune-500 list – are clients of export companies.
